

STATEMENT OF SUBSTANCE OF THE INTERVIEW

The Interview Summary form which accompanied the Notice of Non-Complaint Amendment dated August 15, 2007, contains a substantially accurate discussion of the substance of the interview.

REMARKS

In the Notice, the Examiner indicates that double brackets (i.e., "[[ ]]") should be used instead of single brackets (i.e., "[ ]") to show the proposed deletion of "with" in line 5 of claim 1.

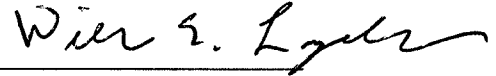

Although Applicants do not necessarily agree with the determination of non-compliance on this ground, nevertheless, Applicants have submitted the section of the response entitled "Amendments to the Claims," including the required corrections, to clearly obviate the above noted ground of non-compliance solely in order to expedite prosecution of the present application. Additionally, Applicants have amended claim 7 to replace "electron expansion valve" with --electronic expansion valve-- in order to more closely conform to terminology commonly used in the present field of endeavor.

Accordingly, in view of the above noted remarks, it is believed that the present response is proper and Applicants respectfully request reconsideration and withdrawal of the determination of non-compliance, and consideration of the Response under 37 C.F.R. § 1.111 filed on September 5, 2006, as well as the Response to Notice of Non-Responsive Amendment filed on November 13, 2006. Further, an early indication of the allowance of all of the pending claims is respectfully requested.

Favorable consideration with early allowance of the pending claims is most earnestly requested.

Should the Examiner have any questions, the Examiner is invited to contact the undersigned at the below-listed telephone number.

Respectfully submitted,  
Sae-Dong JANG et al.
